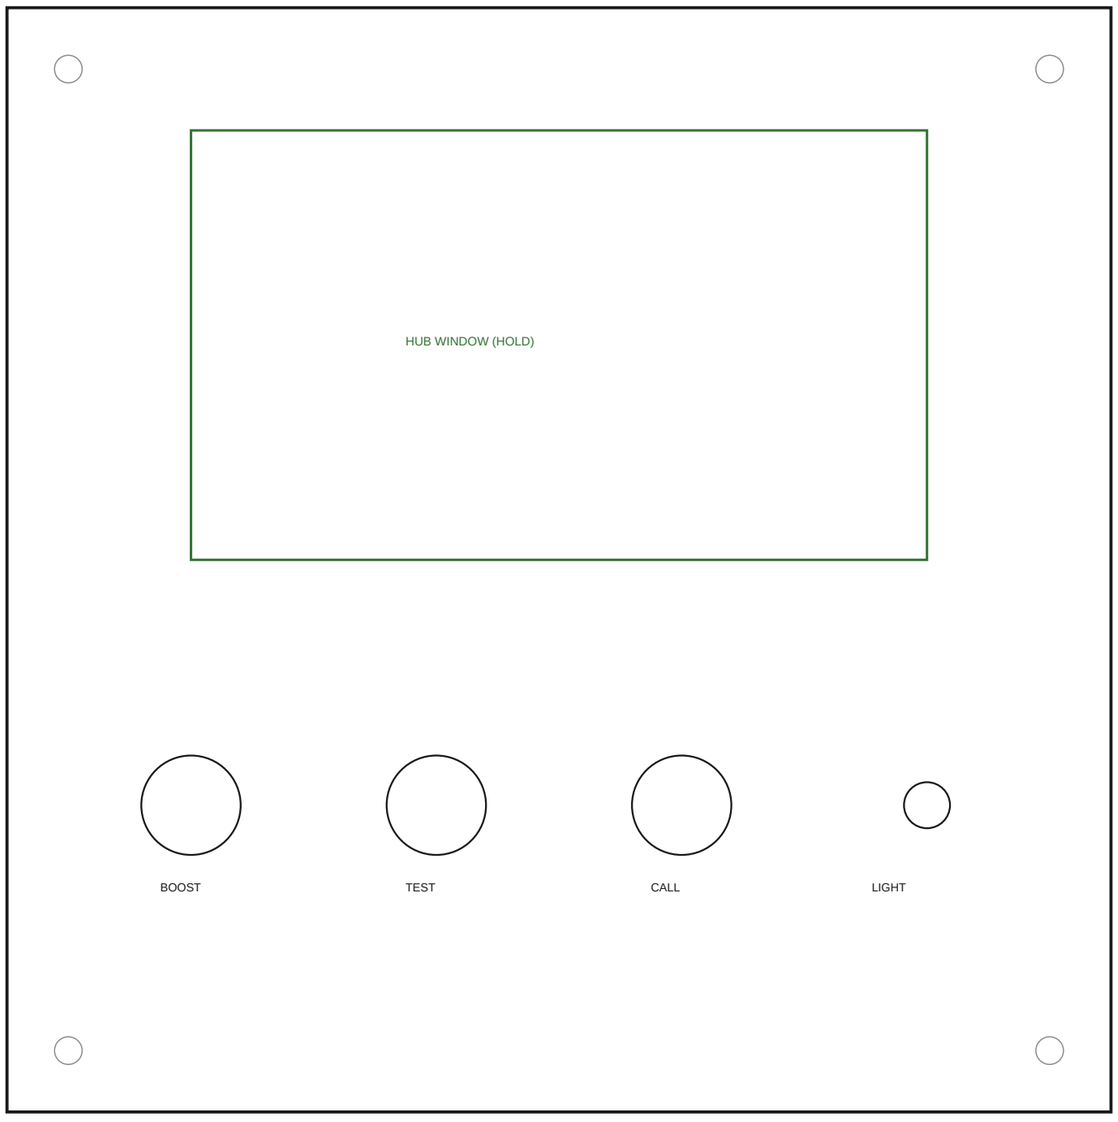
HUB AND CONTROLS ZONE PLATE 711005, seen from the pod, 1:1



180 x 180 on the column's back face, X 957-1137, Z 1110-1290; fuses F3a-F3c behind the plate

PARTS OF 710041

ITEM	PART NO.	NAME	QTY	UNIT	MATERIAL / FINISH
1	718048	ELECTRICAL - SCREW - M4 X 12 - ISO 7045 A2 PAN HEAD, BLACK	4	pc	stainless steel, black oxide (visible
2	718060	ELECTRICAL - SENSOR HUB - DESK PRO AI (IN-HOUSE)	1	pc	
3	711005	ELECTRICAL - HUB ZONE COVER PLATE	1	pc	aluminium 5052-H32 ...5 mm, blac
4	718061	ELECTRICAL - PUSH BUTTON - MOMENTARY - BOOST	1	pc	
5	718062	ELECTRICAL - PUSH BUTTON - MOMENTARY - CALL	1	pc	
6	718063	ELECTRICAL - LIGHT KNOB - POTENTIOMETER WITH KNOB	1	pc	
7	718069	ELECTRICAL - PUSH BUTTON - MOMENTARY - SELF-TEST	1	pc	
8	718064	ELECTRICAL - FUSE HOLDER - ATO BLADE - INLINE - COLUMN	3	pc	
9	718065	ELECTRICAL - INLET TEMPERATURE SENSOR	1	pc	
10	718066	ELECTRICAL - FUSE - ATO 2 A 32 V	2	pc	
11	718067	ELECTRICAL - FUSE - ATO 1 A 32 V	1	pc	
12	718068	ELECTRICAL - FAN Y-CABLE - 4-PIN PWM	2	pc	

NOTES

Hub window, button and knob holes, fixing holes: HOLD until the hub's size (ISS-060) and CEILING's column fixing.
UNITS: mm. GENERAL TOLERANCE: harness segment lengths +20/-0 mm; positions taken from the route model +/-5 mm;
sheet-metal parts ISO 2768-m (their DXF or drawing rules). Status of every number: parts list and harness list.
Every harness segment is tested in the factory before it ships (D-87): continuity, polarity, no shorts, latch pull,
label with its ID. Cables clip to the cassette tray only (D-26). Supply side = receptacle (female contacts).
Bought parts are on HOLD: no order, no supplier contact. Generated by assembly_sheets.py from the model and parts data.

PROJECT	FocusPod v2 - Spaceship
TITLE	**ELECTRICAL - HUB AND CONTROLS ZONE: ASSEMBLY**
DWG / PART NO.	710041 (assembly)
REV / STATUS	P01 / DRAFT - not for production
