PARTS LIST: 810101 INTERIOR - WORK WALL LEDGE ASSY

ITEM	PART NUMBER	NAME	QTY	MATERIAL	FINISH
1	811101	INTERIOR - LEDGE - TOP	1	Aluminium 5052-H32 sheet (alloy HOLD)	powder coat, charcoal to match the felt (RAL HOLD)
2	818101	INTERIOR - LEDGE BRACKET - HOLD	2	HOLD envelope - no mass	-

NOTES

1. Parts, quantities, materials and finishes as the parts list 810000_P01_INTERIOR-PARTS-LIST_BOM.csv (its rows under 810101), word for word; each part's own drawing holds its sizes and tolerances.
2. Views in first angle (ISO 5456-2); each view title gives its X and Y in pod axes (guideline 3.3). Visible outlines only, as an assembly drawing shows them.
3. Fitted on site after the clock (assembly guide, step 22): the ledge top 811101 on its brackets 818101 on the right wall's lower panel R1, centred in the 1051 of wall beside the air column (Y -259.5 to 740.5), its top at Z 1067, 5 mm off the felt so it never touches the floating lining (INTERIOR feature rationale F-8101-01, F-8101-02; D-17, D-57).
4. The brackets carry the ledge into R1's stiles through stand-offs and clearance holes in R1's cassette (F-8101-03).
5. HOLD: the brackets 818101 are drawn as their held envelopes (the parts list's HOLD rows, rated for a 225 N lean at the front edge x 3), and their fixings are on hold with them. INTERIOR's next rebuild makes them made parts on R1's studs, and this sheet is drawn again then.
6. TOLERANCE: the overall sizes are for reference; each part's drawing holds its own tolerances. Not ISO 2768.
