SEGMENTS

ID	CARRIER	FROM	TO	CABLE	L mm	END A	END B
W12	R2-CASS	the shelf's call branch at FX-CALL0 (behind the shelf, Y -209.5)	call light bar (Y -209.5, Z 1450)	2 x 18 AWG, Class 2	1250	Mini-Fit Jr 2-way plug (mates W11c's call branch in P7)	strip feed of the call bar

FORMBOARD 1:2.5 (lengths to scale along the line; a plug pair, a strip feed ring or a stroke at each end)

MATERIAL FOR THIS HARNESS (its share of the parts list lines, counted from the segments above)

PART NO.	NAME	QTY
718023	ELECTRICAL - CABLE - 2 X 18 AWG - CLASS 2 - BELDEN 5300UE	1.25 m
718031	ELECTRICAL - CONNECTOR - MINI-FIT JR PLUG 2 WAY V-0 - MOLEX 39-01-3029 (5559-02P1)	1 pc
718053	ELECTRICAL - LED STRIP FEED LEAD - 24 V - 8 MM - HÄFELE 833.75.763	1 pc

Terminals: Mini-Fit Jr female 39-00-0039 (718036) and male 39-00-0041 (718037) on 18 AWG, one per way.

NOTES
Segments, ends and lengths from the harness list (710000_P01_ELECTRICAL-HARNESS-LIST_SPEC.csv), same revision.
UNITS: mm. GENERAL TOLERANCE: harness segment lengths +20/-0 mm; positions taken from the route model +/-5 mm;
sheet-metal parts ISO 2768-m (their DXF or drawing rules). Status of every number: parts list and harness list.
Every harness segment is tested in the factory before it ships (D-87): continuity, polarity, no shorts, latch pull,
label with its ID. Cables clip to the cassette tray only (D-26). Supply side = receptacle (female contacts).
Bought parts are named from their datasheets (those still on HOLD give their reason in the parts list 710000); no order, no supplier contact. From the electrical model and parts data.
