NOTES
1. Tolerances: see the part drawings; the assembled outline 1160 x 1045 x 74 +/-1: the tray 34 deep and the fill 40 on its back (assumption).
2. Ceiling lining cassette, one part for both halves (C1-CASS, C2-CASS). Drawing D06 of the wall-and-door sample.
3. Parts: 513101 tray 1, 513102 rib 2, 513201 felt 1, 513301 / 513302 / 513303 fill 1 each, 518001 clip 6 (HOLD), 518002 safety catch 2 (HOLD).
4. Clips on the back faces of ceiling cross members X1, X2, X3, over the ribs; catches on X2's front face (D-47).
5. Hangs 4 below the ceiling frame and never touches it except through the clips and catches (D-17).
6. Cables run in the 24 gap and clip to the tray only (D-26, D-41).
7. The two cable bushing holes are the tray's, sized and placed on its drawing 513101.
8. UNITS: mm. Angles in degrees. Mass in kg.
9. Projection: first angle (ISO 5456-2). Views: front looks toward +Y; the view from above is below it; the view from the left is to its right.
10. 2D axes: front view X(2D)=X, Y(2D)=Z; view from above X(2D)=X, Y(2D)=Y; view from the left X(2D)=-Y, Y(2D)=Z (guideline 3.3).
11. Dimensions run from the datum faces named in these notes (overall sizes where none is named), and to hole centres. No ISO 2768 class is applied (conventions 3); the tolerances in note 1 are assumptions until the factory confirms what it holds.
12. Status DRAFT P01: for the prototype and the factory's sample only, not released.
13. Why each feature is where it is: v2/02-Drawings/ceiling/FEATURE-RATIONALE.md.

TITLE DATA	
PART NO.	510301
NAME	LINING - CASSETTE - CEILING - COMMON
TÊN	Cassette trần (dùng chung trái/phải)
REV / STATUS	P01 / DRAFT
MATERIAL	see the parts list
FINISH	-
SCALE	1:5
UNITS	mm
PROJECTION	first angle
SHEET	A1
