## PARTS LIST: 410000 CEILING

| ITEM | PART NUMBER | NAME | QTY | MATERIAL | FINISH |
|---|---|---|---|---|---|
| 1 | 410101 | CEILING - PANEL ASSY - C1 | 1 | - | - |
| 2 | 410102 | CEILING - PANEL ASSY - C2 | 1 | - | - |
| 3 | 510301 | LINING - CASSETTE - CEILING - COMMON | 2 | - | - |

## NOTES

1. Parts, quantities, materials and finishes as the parts list 410000_P01_CEILING-PARTS-LIST_BOM.csv (its rows under 410000), word for word; each part's own drawing holds its sizes and tolerances.
2. Views in first angle (ISO 5456-2); each view title gives its X and Y in pod axes (guideline 3.3). Visible outlines only, as an assembly drawing shows them.
3. Fitted on site, C1 410101 then C2 410102 (assembly guide, step 7): each lifted from inside onto its back spigots on B3, its side against its side wall's upper panel, C2 dropping past C1's lead-in (CEILING feature rationale F-4111-12). Then the closing seam's 4 pins M6 x 25 838002 (J-CEIL-02), the 8 back-edge and the 8 side-edge bolts M6 x 16 838001 (J-CEIL-01); the C1-C2 gap even, 4.3 to 6.7.
4. The two ceiling cassettes 510301 (step 18): each lifted from below, fill side up, onto its clips behind the soffit, its 2 safety catches hooked before it's let go; their front edges 3 behind the soffit.
5. TOLERANCE: the overall sizes are for reference; each part's drawing holds its own tolerances. Not ISO 2768.
