PARTS LIST: 810000 INTERIOR

ITEM	PART NUMBER	NAME	QTY	MATERIAL	FINISH
1	810101	INTERIOR - WORK WALL LEDGE ASSY	1	-	-
2	810201	INTERIOR - LIGHT SHELF ASSY	1	-	-
3	818102	INTERIOR - SCREEN RAIL - HOLD	1	HOLD envelope - no mass	-

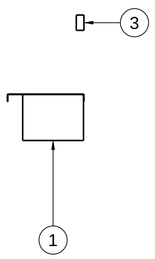

NOTES

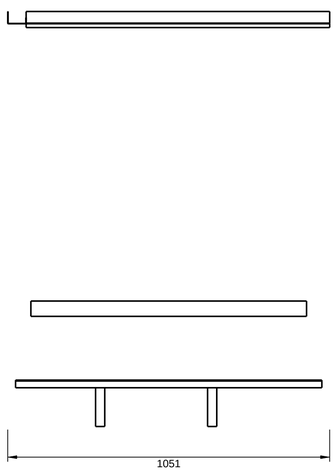

1. Parts, quantities, materials and finishes as the parts list 810000_P01_INTERIOR-PARTS-LIST_BOM.csv (its rows under 810000), word for word; each part's own drawing holds its sizes and tolerances.
2. Views in first angle (ISO 5456-2); each view title gives its X and Y in pod axes (guideline 3.3). Visible outlines only, as an assembly drawing shows them.
3. INTERIOR as fitted in the pod (D-70): the light shelf 810201 along the tops of the side and back walls (underside Z 2230), the work wall ledge 810101 on the right wall's lower panel R1 beside the air column (top Z 1067), and the screen rail 818102 above it on R2 (centre Z 1300) (INTERIOR feature rationale F-8102-02, F-8101-01, F-8103-01).
4. All of it is fitted on site: the light shelf at step 19, the ledge and the screen rail at step 22, after the clock (assembly guide). The ledge and the rail stand 5 mm off the felt on stand-offs to WALL's stiles, so the floating linings carry nothing (D-17, D-57); the light shelf screws to the wall cassettes (F-8102-07).
5. HOLD: the ledge's brackets 818101 and the screen rail 818102 are drawn as their held envelopes, and every fixing is on hold (F-8101-03, F-8103-02, F-8102-07). INTERIOR's next rebuild makes the brackets and the rail made parts on R1's and R2's studs, and this sheet is drawn again then.
6. TOLERANCE: the overall sizes are for reference; each part's drawing holds its own tolerances. Not ISO 2768.

FRONT VIEW 1:10

X = +X, Y = +Z (pod axes); looking toward +Y

VIEW FROM THE LEFT 1:10

X = -Y, Y = +Z (pod axes); looking toward +X
