

HOLES SEEN FROM ABOVE (THE BOTTOM WALL'S AS HIDDEN LINES), ORIGIN O = DATUMS C, B			
Hole	X Dim	Y Dim	Description
A1	101.19	13	Ø7 x 1.5
A2	101.19	27	Ø7 x 1.5

111104 BASE - BAND TUBE - FRONT - FACET 1 - LH / Viền chân trước - mặt vát 1
Drawing 111104_P01_BASE-BAND-TUBE-FRONT-FACET-1-LH_DWG Rev P01 Status DRAFT (not for production) Sheet 1/1, A3 Scale 1:1 (iso 1:2)
UNITS: mm. Projection: ISO first angle (ISO 5456-2), symbol at right. Do not scale.
Material: aluminium 6063-T6 rectangular tube 100 x 40 x 1.5 with a welded 1.5 mm end plate (alloy: assumption)
Finish: black anodised, matte, 20 um (class AA20, EN ISO 7599)
Process: saw cut (both ends mitred), weld the corner end plate, CNC drill and cut the keyholes, deburr, anodise
Mass: 0.138 kg (calculation from CAD)
Tolerances: General tolerances, PROPOSED until the shop confirms them: cut length +0/-0.5; hole positions ±0.2 from datum C along the band and ±0.2 from datum B across it (joints register R-J6: Ø7.0 bolt holes on the wall side positioned ±0.2 from the spigot hole); rivnut holes Ø10.00 +0.10/0 and the glide's rivnut hole Ø13.50 +0.15/0 (D-163). Not ISO 2768 on the anodised faces.
Datums and axes: Part system CS-111104: X along FL1's outer face from its corner end (the long point of its mitre, on DL's outer facet), Y inward square to it, Z up from the band's bottom face. Datums: A = the top face (DL's seat), B = the corner end plate's outer face, C = the outer face (Y 0). End cuts: the corner 24.14 deg off square (65.86 deg to the outer face), closed by a welded 1.5 plate (ground flush, anodised with FL1); the knee 7.25 deg off square (82.75 deg), open, with the knee key 111214 inside.
Holes: Top wall: none (DL's base spigot went with D-169). Bottom wall: the knee key's 2 fixing holes Ø7.0, 10.5 from its back face and 7.0 either side of its centre line (J-BASE-02, 111214), in the hole table. Corner end plate: 2 keyholes on the plate's centre line, a Ø12 entry 10 below each seat and a 6.5 slot up to it, the seats 27.5 and 61.5 above the bottom face (J-BASE-02, the front corner key 111212's studs). The end view sees the plate turned 24.14 deg, so the keyholes show narrower there than these sizes.
Sources: CAD 110000_P01_BASE_CAD and the part's own design; feature reasons in v2/02-Drawings/base/FEATURE-RATIONALE.md; status of every number in base_build.py.
