NOTES

1. Parts, quantities, materials and finishes as the parts list 210103_P01_WALL-PANEL-ASSY-SIDE-UPPER-LH_BOM.csv (its rows under 510103), word for word; each part's own drawing holds its sizes and tolerances.
2. Items marked * (4 848011) are not in the STEP 510103_P01_LINING-CASSETTE-SIDE-UPPER-LH_STEP.step P01: they have no balloon; their places are in their rows and the joints register.
3. Item 3 518003 is shown by the STEP's held envelopes NO-PN-HOLD-H03: the part isn't named yet (DRAFT); its places and count are the envelope's.
4. Views in first angle (ISO 5456-2); each view title gives its X and Y in pod axes (guideline 3.3). Visible outlines only, as an assembly drawing shows them.
5. Datum A: 511103's -X face, the tray's back face, toward the panel frame (ISO 5459).
6. Datum B: 511103's -Y face, the tray's end return, its outer face (ISO 5459).
7. Datum C: 511103's -Z face, the tray's bottom return, its outer face (ISO 5459).
8. Interface sizes (ordinates, true mm from the STEP): the clip centres across the cassette, from datum B (principal view): 518003 at 377.2, 1107.07.
9. Interface sizes (ordinates, true mm from the STEP): the clip centres up the cassette, from datum C (principal view): 518003 at 100, 992.74.
10. Fitting order (WALL's feature rationale F20, F22, F23 and the parts list): (1) the tray, its 34 mm returns turned in as 12 mm lips; (2) the felt, dropped in behind the lips, 1 mm clear inside the returns: the lips hold it with no glue (settles H09), over the 24 mm air gap (D-17); (3) the clips 518003 in their four zones, 100 from the cassette's top and bottom on the panel frame's first and last studs (zones reserved until the clips' hole patterns, HOLD H03, HOLD-08). The cassette is a floating inner leaf (D-17, D-47): it stands on the lower cassette's joint strip 848016 across the 2.26 joint, which takes its weight down to the lower cassette's ledge, and the clips only hold it (D-170). Items marked * go as their rows say: the hook-and-loop pads 848011 only line the cassette up and carry no load (D-47).
11. TOLERANCE: the overall sizes are for reference; each part's drawing holds its own tolerances. Not ISO 2768.
