CREATED BY Autonomous	APPROVED not released	TOLERANCES TOLERANCE: see the notes; not ISO 2768		
PROJECTION ISO first angle (ISO 5456-2)				

GENERAL NOTES

1. UNITS: mm. Do not scale the drawing. ISO first-angle projection (ISO 5456-2), symbol in the title block. Dimensions to ISO 129-1. Sheet 1: views, sections and hole tables; sheet 2: these general notes.
2. Views: the principal view looks down (toward -Z) (X = +X, Y = +Y (pod axes); looking down (toward -Z)); every view's title gives its own X and Y and how they map to the pod axes (conventions section 4). On every view X runs right and Y up.
3. Cut from 6063-T6 aluminium tube to the length and end cuts shown, as the frame's cut list row gives them (D-120); mill finish, hidden (D-79). TIG-welded into its frame in the frame's jig (its weldment drawing).
4. Holes, where the tables show them: drilled after welding by CNC or a drill jig that locates on the frame's joint faces, at the places the frame's weldment drawing gives (as J-FRAME-01 for the welded frames); this sheet shows them on the tube for reference. Rivnuts 838003 are set after that.
5. Two cuts at its right end (D-162: why it keeps this sheet): along DR's joint line at 50.9° from square, and its back corner (the top edge in the principal view) cut square for the last 2.74 across the tube, at DT's right edge; the 1422.77 runs to that square cut (DT's model, #313).
6. TOLERANCES (PROPOSED until the shop confirms; not ISO 2768): cut length +0/-0.5 and end angles ±0.25° (assumption, as the BASE and WALL cut lists); hole positions to the frame's weldment drawing (R-J6: Ø0.4 to its datums); rivnut holes Ø10.00 +0.10/0 (D-163); other hole sizes +0.2/0 (assumption). Not ISO 2768 on the tube.
7. Source: v2/03-Manufacturing/front/350002_P01_FRONT-DECOR-BLOCK-ASSY-DT_STEP.step (sha256 a7337ff2a368; declared unit cm, read in mm and checked against tools/checks/stepfile.py, worst box difference 0 mm); parts list v2/03-Manufacturing/front/351204_P01_FRONT-DECOR-FRAME-DT_BOM.csv. From that STEP: regenerate it, never edit the PDF.
